

## FLOR DAS TECEDERAS TINTO 2015

A Douro blend made up of the most emblematic traditional grape varieties of the region: Touriga Nacional, Touriga Franca, Tinta Roriz, Tinta Barroca, Tinta Amarela and Tinto Cão. Flor das Tecedeiras is a fresh and lively wine with good minerality and nuances of forest fruits. Very versatile in its food pairing capabilities.

### TERROIR

Located in the heart of the Cima-Corgo sub-region and bathed for 1.5 km by the waters of the left bank of the Douro River, Quinta das Tecedeiras owes its name to the nuns who inhabited it and dedicated themselves to the weaving of linen that in the past it was cultivated there.

The soils are of schist and the exposure is north and east, with vineyards between 90m and 190m in altitude. The grapes ripen well and with a great concentration of aromas and flavors without losing their freshness. When the vineyards were reconverted, care was taken to leave some parcels of old vine, whose grapes carefully integrate the lots of all DOC or Porto das Tecedeiras red wines.

### TASTING NOTAS

**Colour** Vivid ruby red with marked intensity.

**Nose** Youthful and intense, with fresh red fruit dominant. Very attractive on the nose.

**Palate** A good dose of freshness and polished tannins, which - along with the fact that it is made in stainless steel tanks - give this wine its elegance and a persistent finish.

### VINIFICAÇÃO

Manual harvest organised plot-by-plot to ensure optimal timing for harvesting each field. Transport in small boxes to avoid crushing. Manual sorting of bunches followed by de-stemming and gentle crushing. Cold soak. Fermentation in temperature-controlled stainless steel vats with gentle daily pump-overs. Pressing. Rests on fine lees in stainless steel vats on until bottling.

### FROM CELLAR TO TABLE

The perfect partner for roasted meats or barbecue meals, as well as cheeses and gastronomy associated with a more relaxed life, such as pasta, pizza, salads and outdoor dining. Can be served slightly chilled.

**Enólogo:** Carlos Lucas

**Álcool:** 14% vol. - **Acidez total:** 4,9g/l - **pH:** 3,64 - **Açúcares totais:** <0,6g/l - **SO2 total:** 70mg/L

Disponível em garrafas de 0,75 Lt. - 1,5 Lts. - 3 Lts.
